

BOEING SIMPLIFIED ENGLISH CHECKER (BSEC)

Simplified Technical English Authoring and Natural Language Processing

INDUSTRY LEADING SIMPLIFIED TECHNICAL ENGLISH AUTHORING & CHECKING

Boeing Simplified English Checker (BSEC) is a powerful tool that supports compliance, consistency, readability, and quality of technical documentation. The easy-to-use interface and advanced features improve efficiency and result in overall volume reduction, a shorter time-to-market, and significant cost savings.

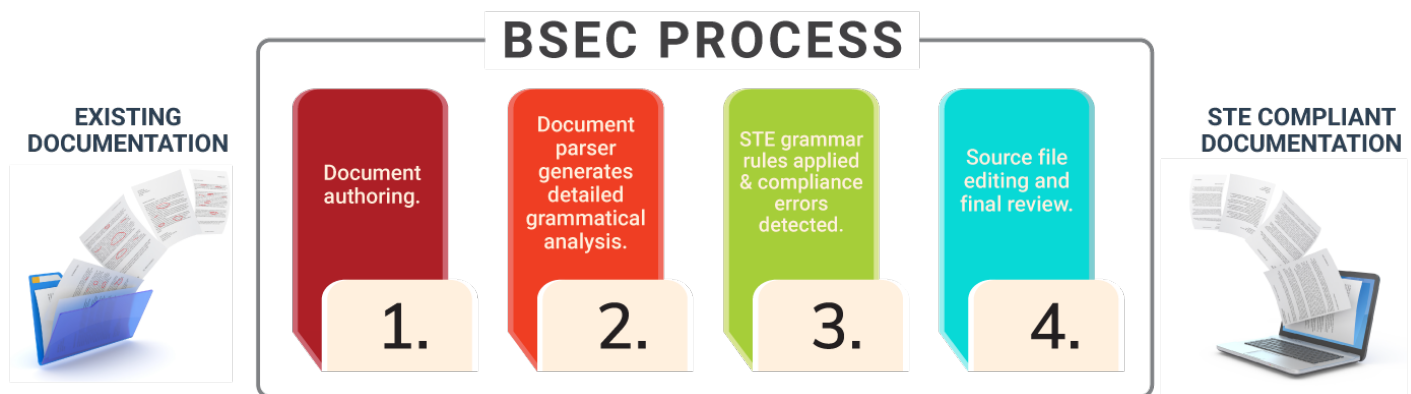

Reduce time spent on the document development and maintenance.

The Boeing Simplified English Checker (BSEC) deliverables result in clear English, reduced language translation costs, higher quality documentation, and safer products.

IMPROVE AUTHORING EFFICIENCY

BSEC is a powerful tool that supports compliance, consistency, readability, and quality of technical documentation. The easy-to-use interface and advanced features improve efficiency and result in overall volume reduction, a shorter time-to-market, and significant cost savings.

STANDARDS-BASED APPROACH

A comprehensive yet easy-to-use application that reduces the amount of time needed in the document development process. Using a standards-based approach, document authors get immediate feedback on their composition from the Vocabulary Management System and Profiler. Provides a more efficient process that is less error-prone and allows for reusability of documentation when translating to different languages.

SIMPLIFIED TECHNICAL ENGLISH (STE) AUTHORING FEEDBACK

- Sentence Structure Feedback
- Batch File Capability - Output can be saved in PDF format
- Microsoft Word Integration
